

Sharing information about your medicines with your local pharmacy

This leaflet will tell you how the hospital can share medicine information with your local pharmacy

When you leave hospital, you may be given medicines to take home with you.

Information about your medicines will be sent to your GP.

The hospital can also send information about your medicines to your local pharmacy.
This can be useful if your medicines have changed.

If you would like the hospital to share your medicine information, please tell us the name of your local pharmacy and your phone number.

A family member or carer can help you with this.
