Welcome to Clinic D, Hertford County Hospital. Please tell the Receptionist your name.

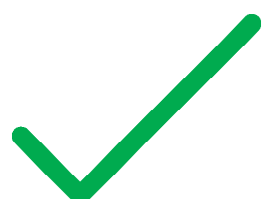

Do you have a Purple Folder and glasses?

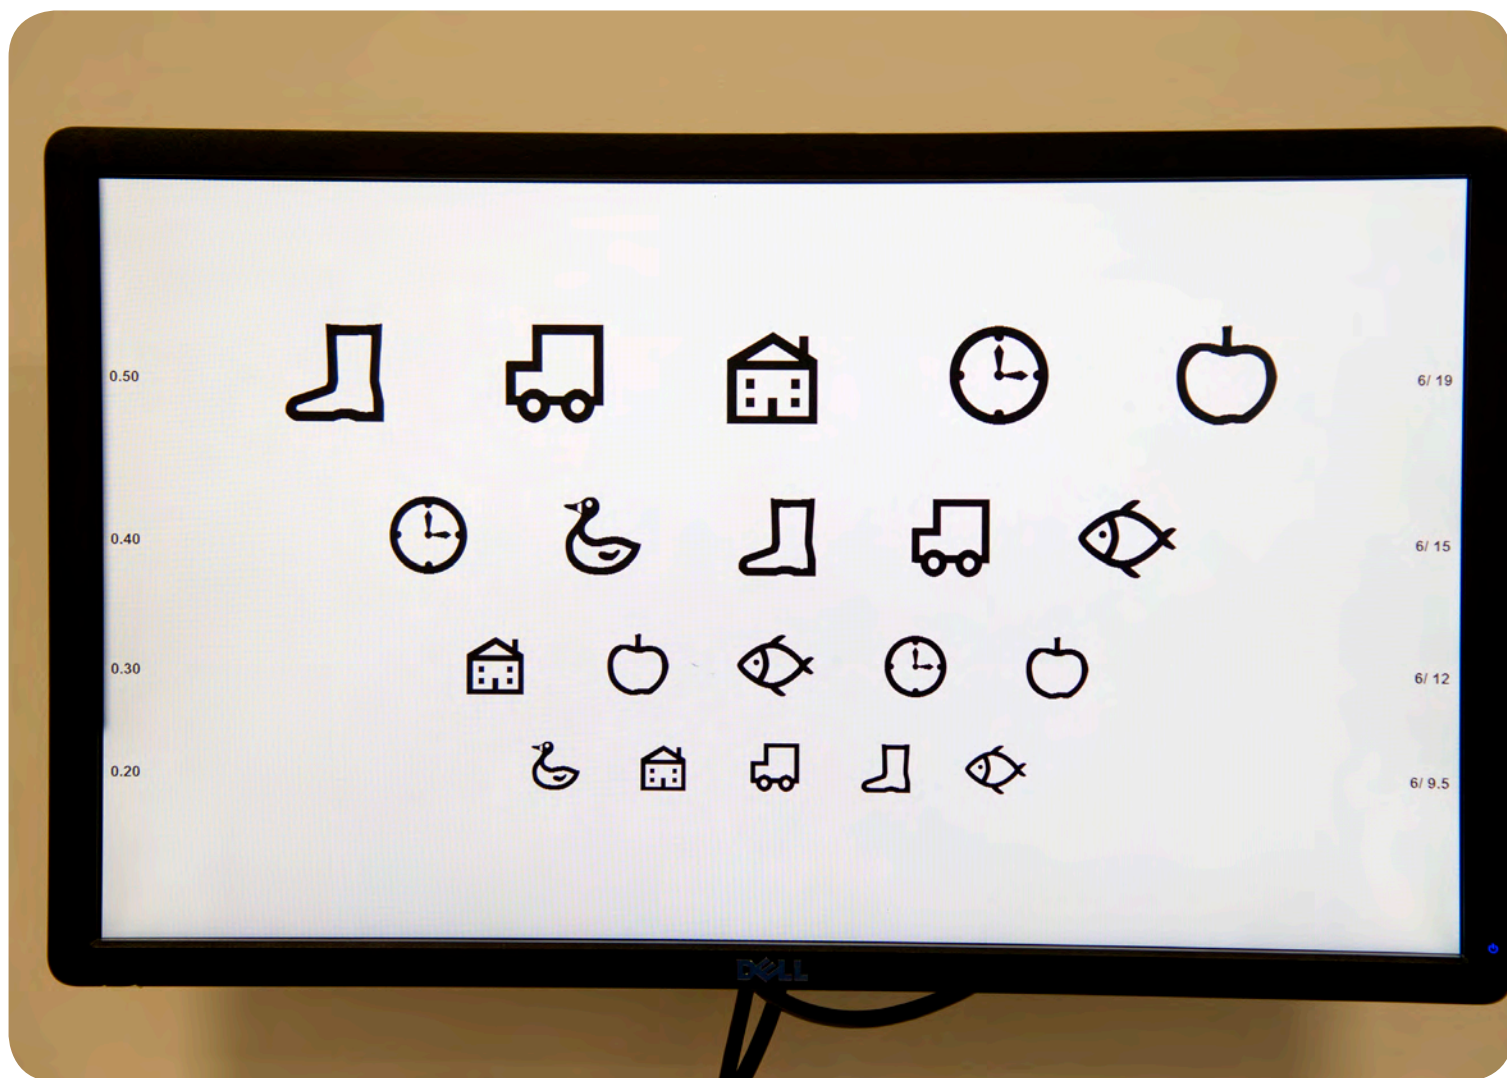

Do you have a Purple Folder?

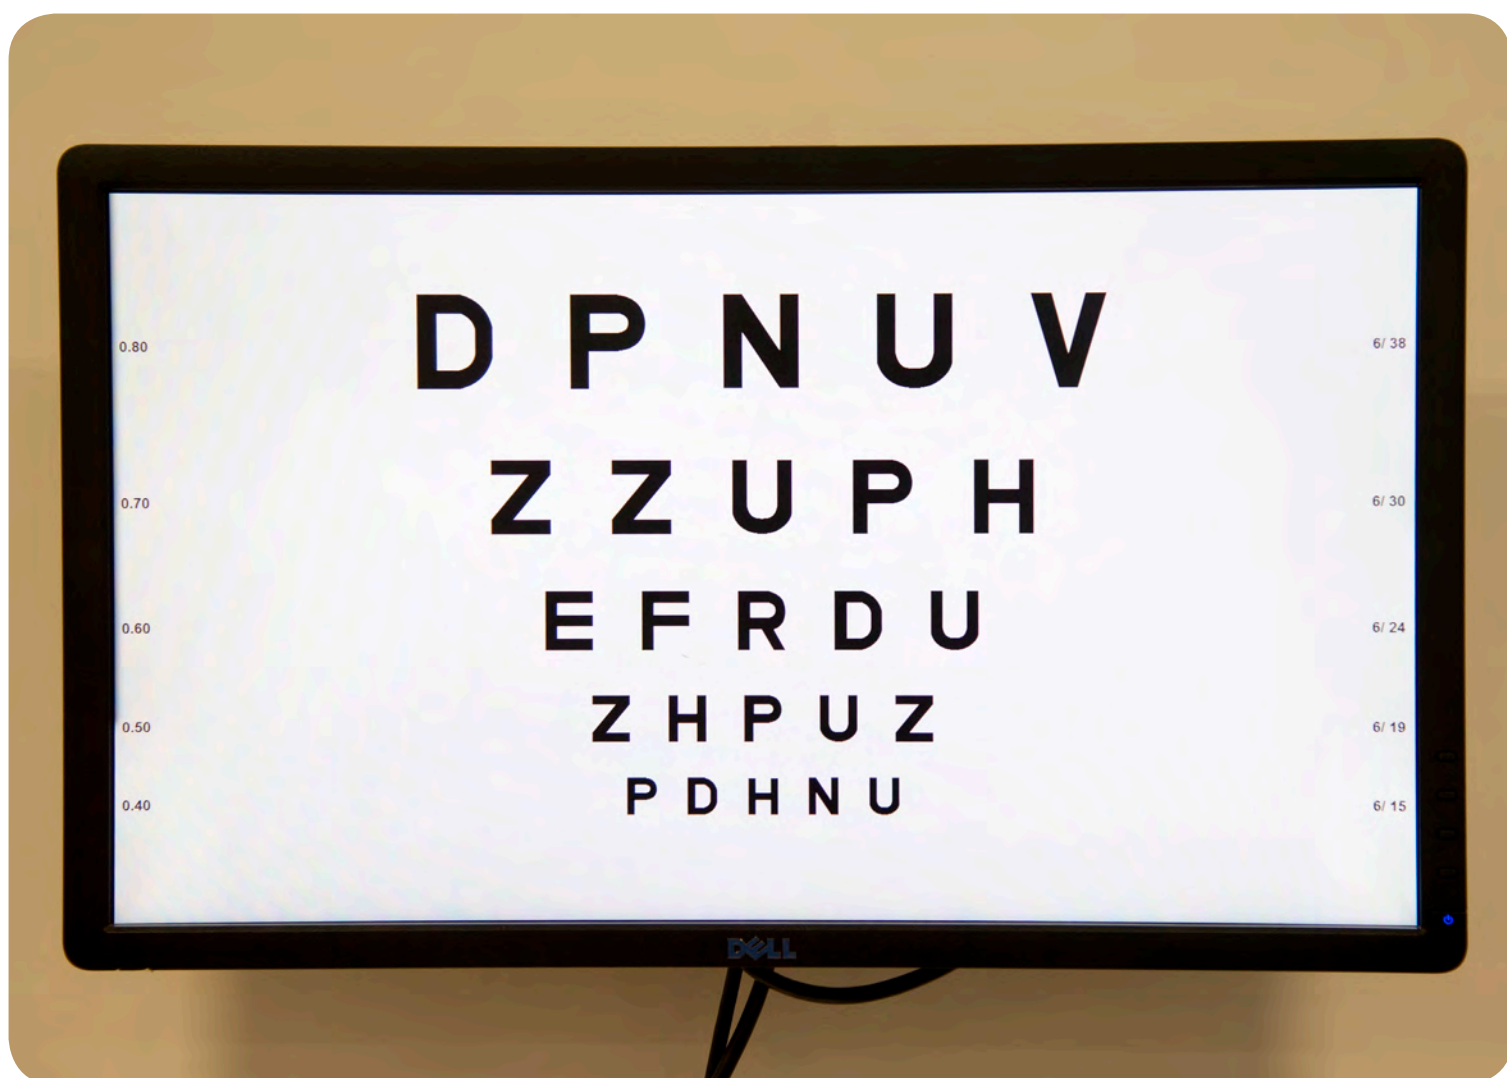

Do you have any Glasses?

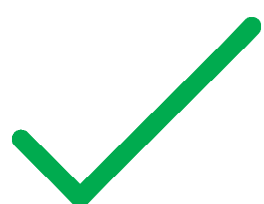

Vision testing

Can you say or sign names of pictures?

Can you say or sign letters?

The nurse will cover one of your eyes to test your vision

Seeing the doctor

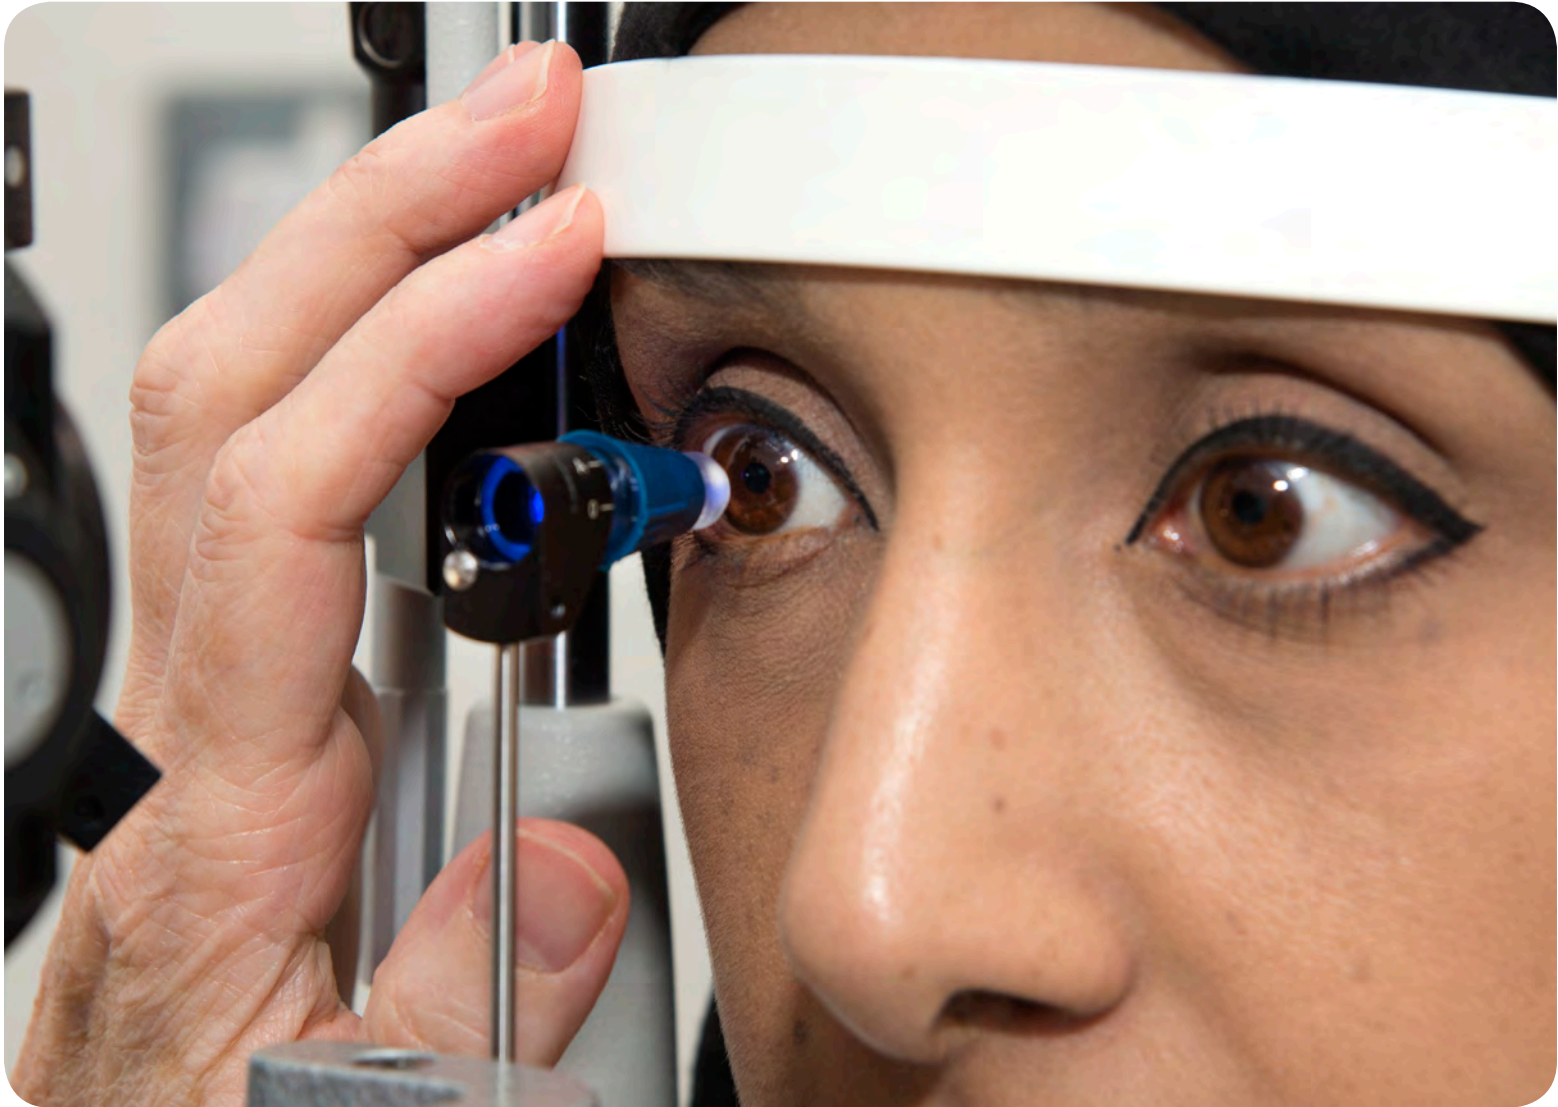

Please sit and wait.

The doctor will call your name and talk to you about your eyes.

Testing Intraocular pressure

The doctor will ask you to look straight ahead. Please sit still. Some machines blow a puff of air into your eye or touch your eye gently. It feels strange, but this test needs to be done.

Eye drops

These are the eye drops.

The doctor may ask to put drops in your eyes. The drops will make you blink.

Waiting

The eye drops will take about 20 minutes to work.

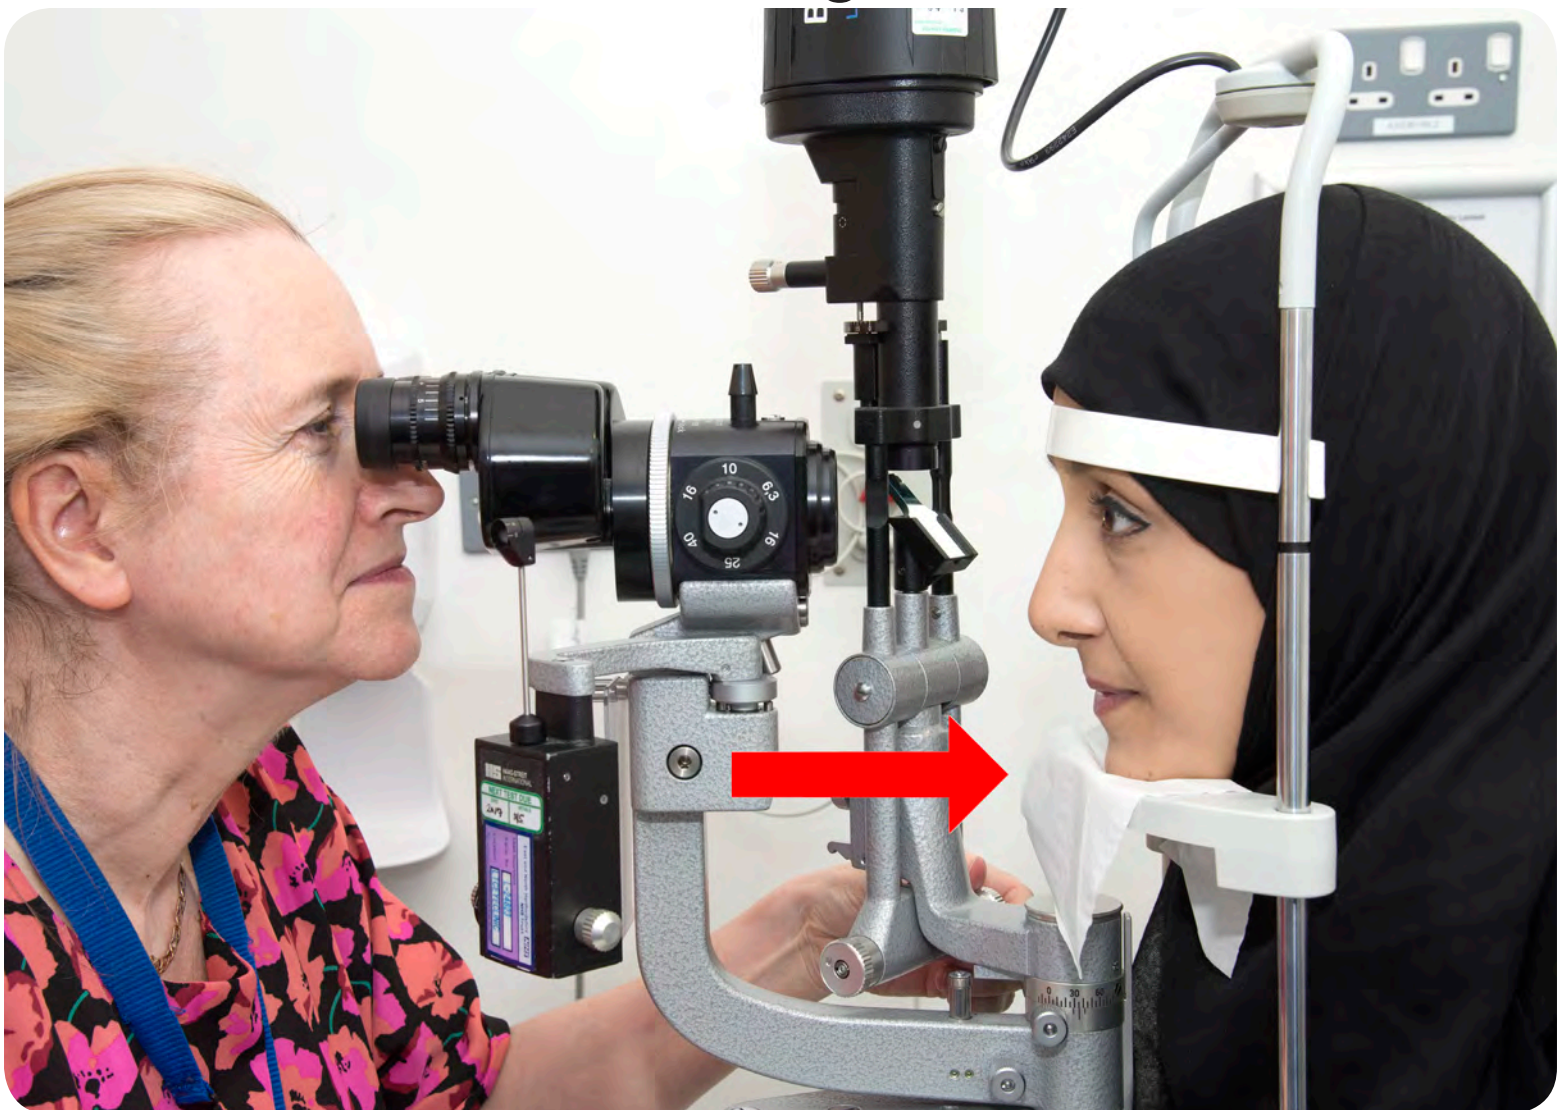

Please sit and wait.

Slit- Lamp examination

The doctor will ask you to come into their room again.

The doctor will ask you to sit at a special machine, like this. You will see a bright light.

The doctor may touch your eye lid.

Optometry examination

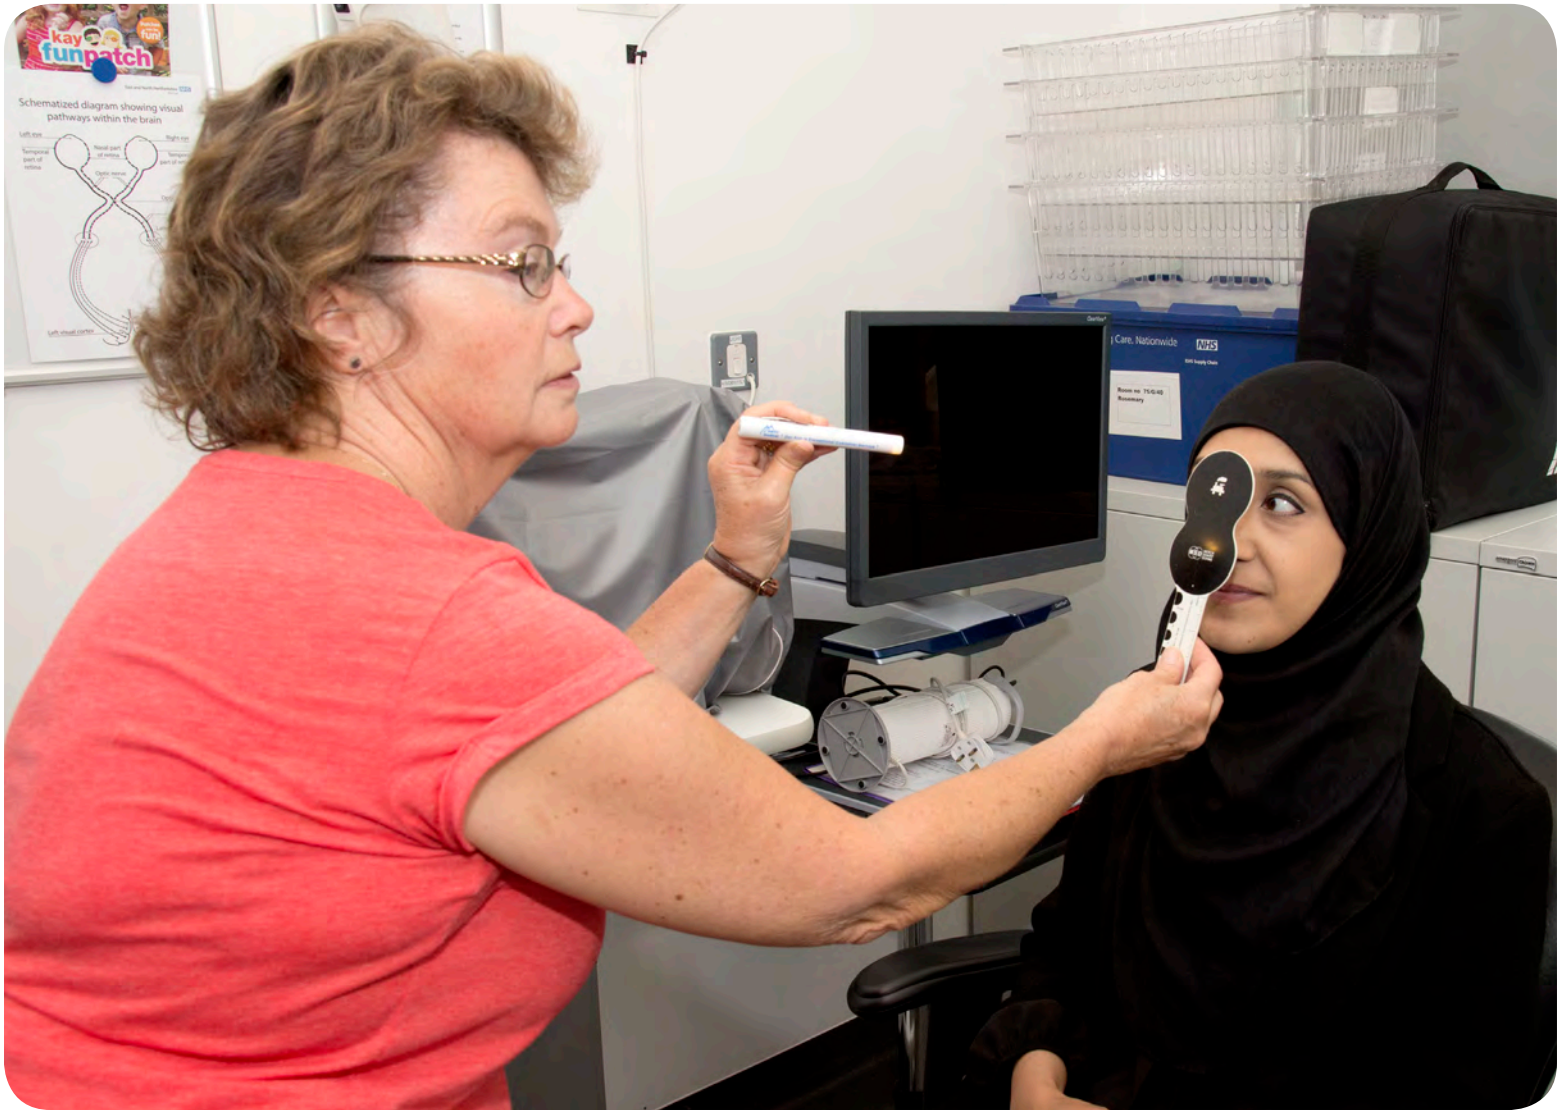

The optometrist will place special glasses on your face

The optometrist will use a bright light to look at your eye.

Orthoptic examination

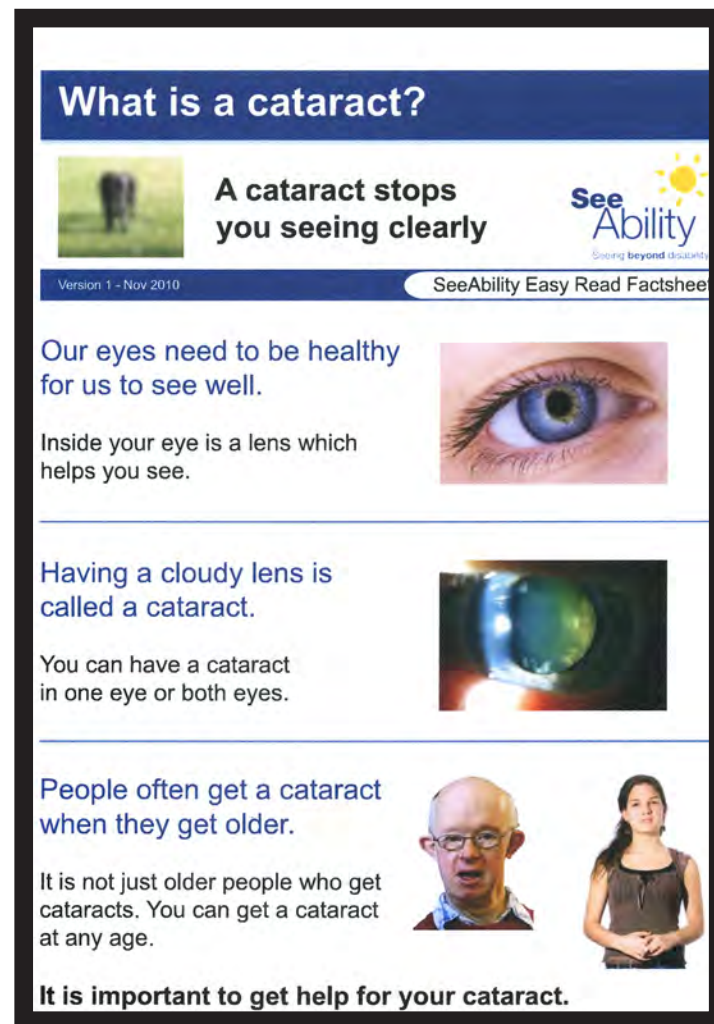

The orthoptist will ask you to look at the light or an object.

The orthoptist may ask you to look through a special window bar.

Leaflets

Please ask for an information leaflet on your condition.

Please ask for comments leaflet if needed.

Prescription

The doctor may give you a prescription form for eye drops.

Please take your prescription form to the local pharmacy chemist

Departing / end of appointment

Please go to reception to say goodbye and ask for your next appointment.

Goodbye.
