

Patient Information

The Oesophago-gastric Service

Multidisciplinary Team (MDT)

Cancer Services

Introduction

This leaflet contains information about the oesophago-gastric service and the multidisciplinary team who will be looking after you. It has been written to help you understand more about the services available to you.

Within the network, oesophago-gastric cancer investigations may be carried out at the Lister and/or New QEII Hospital depending on your needs. Surgery will be carried out at Hammersmith Hospital, London.

You may still have outpatient appointments at your local hospital.

What is a multidisciplinary team? (MDT)

A multidisciplinary team is a specialist team of health professionals who, together with you and your consultant, decide your diagnosis, care and treatment. The consultant looking after you will take responsibility for your care. The team meet weekly to review and discuss suspected or diagnosed cancer. Your treatment plan will be discussed in the multidisciplinary meeting.

Members of the multidisciplinary team

Gastroenterologist

A consultant gastroenterologist organises the relevant tests/procedures to help make a diagnosis. Your gastroenterologist may also provide endoscopic treatments at Lister and/or New QEII Hospital.

Surgeon

A consultant surgeon specialising in performing the type of operation you may require. The operation will take place at the Hammersmith Hospital, London.

Radiologist

A consultant radiologist specialises in diagnosing cancer from tests such as CT scans and X-rays. These tests and X-rays may be done at your local hospital.

Histopathologist

A consultant histopathologist specialises in determining the type of cancer you may have, from the tissue samples taken. This is normally at Lister Hospital. The results will be discussed by the MDT and also sent to your GP.

Oncologist

A consultant oncologist specialises in treating cancer with chemotherapy (anti-cancer drugs) and radiotherapy (X-rays that destroy cancer cells). Chemotherapy may be given at the Lister Hospital or the Mount Vernon Cancer Centre. If you need to have radiotherapy, this is given at the Mount Vernon Cancer Centre.

If you are concerned about receiving chemotherapy or radiotherapy at a hospital not local to you, please discuss this with your doctor or key worker.

Clinical nurse specialist (CNS)

A specialist nurse provides information, advice and support during your diagnosis and treatment and is usually your key worker during treatment at the hospital. They will be your main point of contact.

Research nurse

A research nurse supports patients taking part in clinical trials. If appropriate you may be referred to a research nurse for information about a clinical trial.

Chemotherapy nurse

The chemotherapy nurse specialises in giving chemotherapy, managing its side effects and supporting you through your treatment.

Multidisciplinary team patient pathway facilitator

A patient pathway facilitator is responsible for organising the MDT meeting and is not involved in direct patient contact. In the event of any queries, please contact your consultant's secretary.

Spiritual and Pastoral Care Team

The Spiritual and Pastoral Care Team is available to support patients, along with their families and carers, whether they have a faith or not. You can call the Spiritual and Pastoral Care Team on **01438 285519**. Alternatively, you can ask your CNS to contact them on your behalf, or a member of the nursing staff if you are an inpatient at the Lister Hospital.

Psychologist

The psychologist works with the CNS to support you and your family with any emotional or practical problems arising from your diagnosis.

Other members of the team

You may be referred to other members of the multidisciplinary team. This will depend on your individual needs and symptoms. Other members of the team include:

- Physiotherapist
- Dietitian
- Palliative care

What can you expect from the multidisciplinary team?

The team will recommend and agree a treatment plan. This will be discussed with you at your next outpatient appointment. You can request a second opinion about your diagnosis, the recommended treatment plan and care if you wish.

You will be offered access to a CNS and you will be given information about your care and the treatment as well as information about local and national support services.

The team will regularly review your case and you will have the opportunity to discuss your progress.

Your GP will be kept up to date with your care and treatment.

What is a key worker?

A key worker is a member of the multidisciplinary team you can contact to talk about your care/treatment or other matters. Your key worker can be any member of the team, but is usually the clinical nurse specialist (CNS). You will have a key worker in your local hospital who will communicate with other services involved in your care, and with the hospital where you are being treated.

Treatment

Your key worker will discuss with you what the MDT feel is the right treatment for you and how you feel about the treatment plan.

Depending on your diagnosis, you may need to have surgery, chemotherapy (anti-cancer drugs), or radiotherapy (X-ray treatment). Please discuss any questions or concerns with your key worker.

Who should I contact for advice and support?

During normal working hours, please contact your key worker or CNS. Outside normal working hours, please contact your GP or NHS 111.

Patient Advice and Liaison Service (PALS)

This is a confidential help and support service for patients who use our hospital. If you have a particular concern and would like to discuss this outside of your team, please telephone PALS on **01438 285811**.

Is information about me kept confidential?

Yes. All information regarding your tests, diagnosis and treatment plan will be treated in a confidential manner. Only members of the multidisciplinary team and other health professionals involved in your care, will have access to information about your diagnosis and treatment.

Please see our privacy notice for how we protect patient information:

<https://www.enherts-tr.nhs.uk/help/privacy-data-protection/>

Where can I get more information?

For information about your cancer and its treatment please contact your key worker.

Further help and support

If you would like further information and support, please come to the Macmillan Information and Support Centre, located near the main entrance at the Lister Hospital, or telephone **01438 284657** or **07554 436746**.

If you would like information about other issues, please see the contact numbers on the back of this leaflet.
